Company Announcement

22 September 2009

Dear Sir

DWS Advanced Business Solutions Ltd (DWS) is pleased to announce that it has been successful in its re-tender for the support and maintenance and ongoing enhancement of the Australian Taxation Office's (ATO) *e-tax* project. This project is valued at approximately \$10M over three years, with a further two one year options to extend the engagement thereafter.

DWS has been providing services to the ATO for the *e-tax* project for over three years. This engagement came with DWS' acquisition of Sydney based IT services business Turnaround Solutions, and DWS has successfully built on this initial relationship.

DWS' Chief Operating Officer Vivian Clark said of the tender win "this is an important project for DWS to retain as it demonstrates the value our clients recognise from DWS as their incumbent service provider. *e-tax* is a high profile project for DWS and we are pleased to be able to continue build on our strong relationship with the ATO".

e-tax is the ATO's free tax return preparation software that enables individuals to prepare and lodge income tax returns online. In 2008, over 2.2 million individuals used *e-tax* to lodge their tax return and it is anticipated that will increase in 2009 with the enhancements provided by DWS.

Yours faithfully

Lachlan Armstrong
Chief Financial Officer
